DIVERSE OPPORTUNITIES FOR EMPATHETIC CUSTOMER EXPERTS

YOUR PROPULSION EXPERTS

Welcome on board. Our passions are azimuthing propulsion and manoeuvring systems as well as complete propulsion systems for vessels of all sizes and types. These innovative system solutions are developed, built and produced in Spay am Rhein, Dörth and Wismar (Germany). We also have 13 additional sites which manage sales across all five continents. The international shipping industry has benefited from our global coverage for nearly 100 years.

SENIOR PROJECT MANAGER (M/F/D)

Your responsibilities and duties on board:

Our loyal customers rely on smart, cutting-edge solutions – with good reason. They appreciate our deep knowledge of the market, outstanding technical expertise, and trust in our professional advisory services and tailored products.

- Responsible for the processing of orders in compliance with all commercial and technical contractual requirements, from Contract effectiveness until ship delivery
- Manage projects of high complexity which require an active, structured and involved level of support, both for civil and military applications
- Back-up of the Project Manager department head.
- Review technical and commercial aspects of new contracts
- Coordination of project scope, costs, communication, quality and risks
- Align, adjust, plan and coordinate technical interfaces with shipyards, owners and designers to assure successful project closure
- Advice customers on optimal product integration and participation to interface meetings
- Initiation and implementation of process improvements

Your qualifications drive our success:

- MSc or BSc in Marine Engineering, Naval Architecture, Mechanical Engineering or Business administration
- Certified Project Manager (PMBOK or comparable)
- Proven multi-year experience managing customer projects in the field of capital equipment
- Willing to travel internationally
- Entrepreneurial thinking and assertiveness
- Customer oriented, good communication and negotiation skills
- Prior leadership experience preferred
- Very good English skills both written and spoken
- Familiar with MS-Office products as well as CRM/ERP systems

Stay on course at SCHOTTEL:

- Promoting your personal and professional competencies
- A friendly environment where a proactive approach is valued
- Systematic additional education at SCHOTTEL academy
- An excellent work-life balance, e. g. thanks to flexible hours
