

Upgrade of old SRP 500 / 1100 series with new SRP 1012 / SRP 1212

SRP 503/505

New SRP 1012

Advantages:

Customized solution, hence:

- Keeping existing well installation, less modification required
- Adaption to existing shaft line, no change of engine position required
- New clutch directly mounted at SRP, old type K-503 no longer needed
- Upgrade of existing steering system
- Thrust increase with total bollard pull of over 45 tons (SRP1010) or over 60 tons (SRP1212) possible, however depending on engine arrangement
- Enhanced service and spare parts supply
